Dr. Adam Baxter-Jones
College of Kinesiology
University of Saskatchewan
87 Campus Drive
Saskatoon, SK S7N 5B2

Dear Adam,

Congratulations on your two-year Saskatchewan Health Research Foundation (SHRF) award in the amount of \$50,000 for the development of the *Bone Imaging Research Group*. Your success in this application is important for the development of health research and innovation in the Saskatoon Health Region, at the University of Saskatchewan, the College of Kinesiology, and our community. Assuming that SCI-HI moves ahead, the bone imaging component will be a key component.

We wish you every success in your research program, and please let us know if our Office can be of assistance in any way.

Sincerely,

A handwritten signature in black ink, appearing to read "Beth Horsburgh", written over a large, stylized loop.

Martha E. (Beth) Horsburgh, RN, Ph.D
Associate Vice-President Research – Health
(University of Saskatchewan)/Vice-President
Research & Innovation (Saskatoon Health Region)
