

Webex (Web Conferencing)

Webex is a campus wide, centrally supported web conferencing solution that enhances productivity by providing rich online environments for collaboration. With web conferencing, you can use your own computer to interact with others in video or audio-only meetings. WebEx can be used to record web conferences, share desktops and applications, conduct polling and live-chat messaging. Participants can use browser, desktop application or a mobile device application with audio and video in a highly secure environment.
